Ch-23 Workers Compensation
Homework Answers**

01

A company with 65 employees recorded in their OSHA 300, Log & Summary:

7 injury cases with lost workdays

2 injury cases without lost workdays

2 illness cases without lost workdays

If the total hours worked by all employees was 130,000, what is the incidence rate of lost workday injuries?

A. 16.92

B. 06.15

C. 10.77

D. 13.85

$$TRIR = \frac{\text{No. of injury or illness cases} \times 200,000}{\text{Total number of hours worked}}.$$

$$TRIR = \frac{7 \times 200,000}{130,000} = 10.77$$

02

A company had 263 employees that worked a total of 425,500 hours during the calendar year. The company had 5 recordable injuries in the same calendar year.

What is the company's OSHA Incidence Rate?

A. 2.35

B. 5.25

C. 10.63

D. 12.10

$$TRIR = \frac{\text{No. of injury or illness cases} \times 200,000}{\text{Total number of hours worked}}.$$

$$TRIR = \frac{5 \times 200,000}{425,500} = 2.35$$

03

Workers' Compensation represents a significant business expense for employers. To a large extent, employers can influence their cost of this coverage by:

$$\text{Experience Modification Rate (EMR)} = \frac{\text{Adjusted actual losses} + \text{Ballast}}{\text{Expected losses} + \text{Ballast}}$$

- A. Obtaining a low-rate prospective experience rating plan
- B. Improving their experience modification rate**
- C. Obtaining a low-rate retrospective experience rating plan
- D. Negotiate with life underwriters

04

Workers' Compensation is determined by:

- A. Federal law
- B. Casualty insurance companies
- C. State law**
- D. Unions

- A. Employee has to prove negligence by the employer
- B. Amount of compensation is decided by the employee and employer under arbitration
- C. Employer assumes responsibility and compensation for accidents, regardless of fault**
- D. Employee may sue employer if the compensation provided is not adequate

06

Joe had a work-related injury with an unguarded table saw. Workers' compensation covers all of the following losses except:

- A. Medical expenses
- B. Rehabilitation expenses resulting from the injury
- C. Ambulance ride to the hospital
- D. **100% Lost wages including overtime**

07

What is the basic provision that workers' compensation insurance is designed to offer?

- A. Ensure employment for the rest of their career.
- B. Cover all medical expenses and a set percentage of their standard wage.
- C. Provide a one-time lump sum settlement, determined by the type of injury.
- D. Cover all medical costs related to a workplace injury.**

08

How does workers' compensation insurance benefit employers?

- A. It increases employee productivity
- B. It provides full legal immunity from all workplace incidents
- C. It limits financial liabilities related to workplace injuries**
- D. It covers all types of damages an employee might claim

09

The EMR of the company was 1.05 last year.
Which is a true statement?

- A. Losses were below average when compared to the sector
- B. Worker Compensation premiums are higher when compared to the sector.**
- C. EMR is calculated on a 2-year rolling average
- D. The Worker Compensation insurance will go down 5%.

10

A maintenance employee receives a minor laceration while repairing a press. The employee cleans the wound and applies a dressing to the wound. She reports the wound to her supervisor on the day of the injury. It took the employee 30 minutes to administer first aid to the wound

and report the injury to her supervisor. The injury happened at 3:00 pm and the shift ends at 4:00 pm. The supervisor tells the maintenance employee to take the rest of the day off since it is so close to quitting time. The supervisor reports the incident to the Safety Director the next morning. How should the safety director record this injury on the OSHA 300 form?

- A. Lost workday case
- B. Restricted workday case
- C. Recordable injury, no lost workdays or restricted workdays.
- D. The safety director should note the injury on a first aid log, but not the OSHA 300 form.**
